

**COLOUR  
OF THE  
WEEK  
Green**

# Colour of the Week – Green

## Colour Only the Green Objects

Look at the pictures. Colour only the objects that are green.

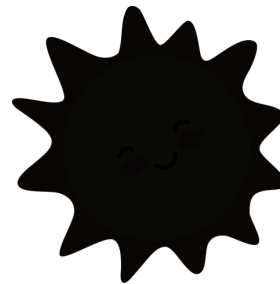

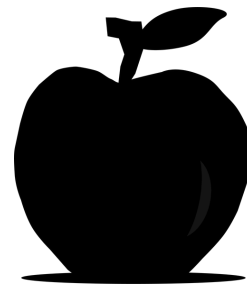

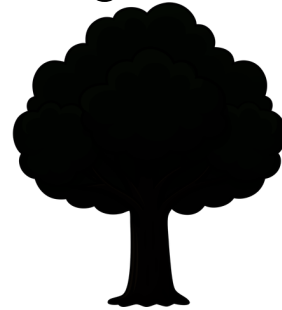

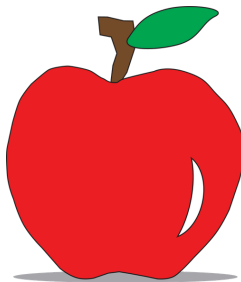

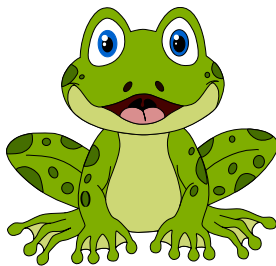

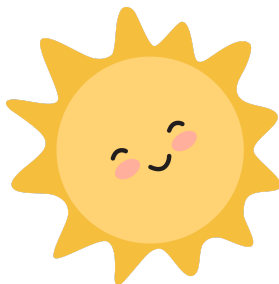

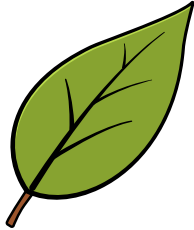

How many green objects did you colour?

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
----------------------	----------------------	----------------------	----------------------

# Colour of the Week – Green

## Match the Green Objects

Match the green objects to the green circle.

How many green objects did you match?

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
----------------------	----------------------	----------------------	----------------------

# Colour of the Week – Green

## Trace the Colour Name

Trace the colour name, then colour with green crayon

GREEN

TREE

LEAF

GRASS

# Colour of the Week – Green

## Count and Colour Green

Count the objects and colour them green.

## Talk & Learn (Parent Section)

### **Where do we see green outside?**

Encourage your child to notice trees, grass, leaves, plants, and parks.

### **Are all greens the same shade?**

Show light green and dark green. Help your child compare and describe differences.

### **What helps plants grow?**

Talk about sunlight, water, soil, and care. This builds early science awareness.

### **Can you find something green at home?**

Let your child explore and point to green toys, clothes, or food.
